Connecting KeyBox 9400EC/9500EC

The instructions below are for when you connect expansion cabinet to an existing KeyBox 9400/9500SC. Follow the instructions carefully:

STEP 1

After mounting the 9400EC or 9500EC cabinet on the wall, cut the power from the main cabinet (9500SC).

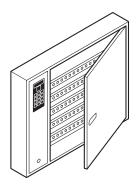

STEP 2

From the last strip in the first cabinet, connect the cable to the top port of the expansion card(see illustration below).

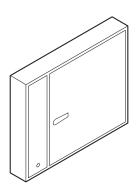

STEP 3

From the bottom port of the EC-printed circuit board connect it to the first strip in the 9500EC.
