

Digital Bluetooth KEYSAFE lock

A great addition to the home, office or business,
providing a versatile and convenient method of entry.

Access Just Got Smarter

The KEYSAFE by McGrath Smart Locks is a stylish and feature rich key box that can be used to securely store a spare key or access card to your property. A great addition to the home, office or business, this 5 in 1 digital key safe lock provides a versatile and convenient method of entry that allows you to easily manage who has access to your property.

Utilising the powerful McGrath Locks App, lock and user settings are easily configured and managed. Access can be provided to family and visitors alike through pin code, RFID credential, eKeys managed via BLE and mechanical key override. By adding a McGrath Locks WIFI gateway you can remotely unlock the KEYSAFE from anywhere in the world using the McGrath Locks App.

The KEYSAFE has a protective cover to offer further weather protection and is supplied with a shackle should you prefer to hang the box instead of installing to a wall.
