# 2025

## HAPPY NEW YEAR

Happy New Year everyone! We hope you all had a safe and enjoyable break, and are looking forward to the year ahead.

We have a jam-packed year of events, with an ongoing focus on training and helping you to upskill and take advantage of the latest product opportunities. We've got a regional focus this year and our team will be out and about like never before. Our mobile training vehicle (STU) is being refitted over the break and will hit the road in February.

As we enter our 99th year, I often think what my grandfather would make of the locksmith and security industries today. What he'd recognise is our passion for helping customers in business, and showing how a new product can solve a problem – giving consumers peace of mind, and helping you work efficiently. He'd recognise our passionate and trained staff, and our breadth of product offer.

The mind would boggle when presented with online ordering, online training, electronics adding convenience and functionality into all kinds of security products, and the spread of suppliers LSC works with today. What would a person from 99 years ago make of Ai ?

Our Web team have a very exciting year ahead with improved product search algorithms coming, and more ways to connect and stay in touch with our team, and to get help online.

I saw a sneak preview of our upcoming smart lock installation course, and it's another thing to be excited about as the consumer demand for the convenience of smart locking products skyrockets.

There is so much work out there for businesses which have the capacity to grow and evolve – and we can't wait to help you get a slice of that pie.

I look forward to the chance to meet you at an upcoming event, either in a capital city at one of our branches, or in a regional location with our upcoming program of events.

**Mark Johnson**

# ABYL

# 2024 Winner

**Congratulations Keegan Moylan**  
Solar City Locksmiths | Shepparton, VIC

Keegan has proved himself to be a talented young locksmith with a great future ahead of him.

LSC will host Keegan in Melbourne in late February where he will accept the prize pack, a trip to the SALTO XSpereience Centre, KJ Ross, Lockwood manufacturing facilities and network with industry peers.

We congratulate and thank our other three finalists, Josh Caruana, Jai Wallace and Curtis Warburton for their time and effort during the judging rounds.

### Prizes:

# LEADING AUSTRALIAN MADE BRANDS

Join us in supporting Australian brands that have earned trust locally and are making waves globally. This curated selection of Australian brands are dedicated to providing you with solutions that safeguard homes and businesses across the nation.

**Lockwood** is the leading brand in the Australian locking industry. With a well-established reputation for high quality products, this iconic brand provides a wide range of locking solutions to residential housing, commercial building and industrial application markets.

**ADI** was founded in 1975 by Locksmiths to meet the needs of Locksmiths. The inventors found that specialised locking products didn't exist, so they went about creating them.

Established in 1951, **K.J.Ross Security Locks** started out from humble beginnings to quickly grow to become Australia's most respected name in security products.

Established in 1987 **CS Technologies** is an Australian owned, leader in designing and manufacturing solutions for the building access control and security market.

**Kevron** is an Australian company specialising in the manufacture and supply of identification products for keys, fobs, credentials and even your pet or your wine!

Established in the late 1980s, **D&D Technologies** is a company dedicated to the design and manufacture of top-quality, state-of-the-art gate hardware products.

**Austral Lock** is the Australian market leader of premium door and window hardware, providing locking solutions for windows, security screen doors (hinged or sliding) and sliding patio doors (aluminium or timber).

**Lock Focus** has been at the forefront of lock mechanism innovation in Australia since 1972. They continue to manufacture the majority of their products in Australia, making Lock Focus one of the last lock manufacturers in the country.

Founded in 1917, **Sutton Tools** remains an Australian family business that is renowned for its high-quality power tool accessories and cutting tools for the hardware market and a wide range of specialised industrial applications.

**Telkee Key Cabinets** is Australia's #1 Key Management Solution. For over 70 years they have manufactured commercial quality lockable key management systems in Sydney, Australia.

# ADI 50 YEARS

**Celebrating 50 years of innovation, ADI has stood the test of time as a leader in the Australian locksmithing industry. From its humble beginnings to becoming a trusted name, ADI continues to shape the future of Australian made locking solutions.**

ADI was established in 1975 by locksmiths who recognised a gap in the market for a specialised lockable bolt. Driven by the need for better solutions, they set out to create a clever product that would better serve the Australian Locksmithing industry.

From the beginning, ADI has continued to build on this vision, listening closely to feedback from Australian industry leaders and developing products that address real-world needs. This commitment to innovation continues to enable ADI to provide unique, high-quality locking solutions that stand the test of time. After 50 years, the company's focus to deliver products that are not only cost-effective and smart, but also visually appealing and practical for locksmiths remains.

The story of ADI's flagship product, the 'lockable bolt,' began in 1975 when Peter and Brian Preddey invented and started producing it at Preddey's Locksmiths in Miranda, Sydney. This groundbreaking product was born out of necessity, as nothing like it existed at the time and locksmiths needed a better solution.

Following that, in 1978 Brian launched ADI Mobile Locksmiths; with the acronym "ADI" standing for "Automotive, Domestic, Industrial." Later that year, the Preddey Bolt was rebranded as the ADI Bolt, marking a significant milestone for the company. With increasing demand, production moved to Gerringong in 1982, where it remained until 2015, before settling in Brooklyn, Victoria, where it operates to this day.

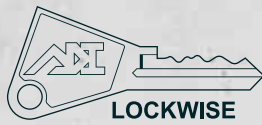

In 2025, ADI still produces a large range of instantly recognisable, ever-popular products, such as the 5004 Lockable Bolt, SL5 Slimline Lock Bolt, and 444 Block Locks. It's remarkable to think that ADI has been crafting high-quality, Australian-made products since 1975.

Throughout the years, the ADI range has evolved with cosmetic updates and changes in materials, but its core identity as a robust, lockable bolt has never changed.

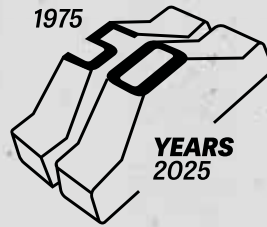

Renowned for its consistent quality and durability, 50 years later, ADI continues to be proudly Australian-made and remains a top choice for locksmiths seeking reliable, innovative solutions.

LOCKWISE

## THE HISTORY OF THE ADI LOCKABLE BOLT

1975

First Preddey Bolt made.

1978

Changed to ADI.

1983

Changed to cast aluminium.

1988

588 model with new shape.

1978

5004 model. Zinc diecast.

1983

SL5 slimline style solution.

## THE STORY BEHIND THE PART CODES

- The ADI 5004 was produced in the 5th month of 2004.
- The ADI 444 was produced in the 4th month of 2004.

“Ask locksmiths what ADI means to them; they would say reliable, unique, heavy duty & tough.”

# NEWS AND EVENTS

Throughout November and December, we were privileged to sponsor & participate in MLAA branch meetings across Australia & NZ.

We joined the MLAA Summer Roadshow in **Sydney** hosted by CMI Safe Co. The afternoon kicked off with factory tours giving us an exclusive look behind the scenes at the craftsmanship behind CMI's renowned safes

Our next location was in **Melbourne**, where our great friends at dormakaba hosted our fellow VIC members at their National Office in Hallam. The afternoon started with afternoon tea, followed by informative TS98 XEA Training.

Then, it was all smiles in **Brisbane** as our team stepped up to sponsor & host the QLD event at our Branch, providing a delicious assortment of Thai cuisine the hungry crowd.

Our **Adelaide** Branch took it to another level, cooking up a spit roast for SA members and showing off their recently renovated showroom space.

Finally, our **Perth** team sponsored the final event of the tour at the Balmoral Hotel. Always a great bunch, we love hosting our fellow WA members at this iconic pub.
