THE INNOVATOR

Mark's Era

Mark's values:

- 1) Hire decent people*
- 2) Trust and believe in them*
- 3) Be of value to the customer*

The 1980s - early 1990s:

Building a National Network

The late 1980s and early 1990s marked one of the most significant periods in LSC's history, transforming the business from a Victorian wholesaler into a truly national organisation.

In 1988, LSC opened its first interstate branch in North Parramatta, Sydney. Recognising the need for greater local support, increased stock holdings and dedicated sales resources in NSW, the new branch strengthened LSC's ability to service locksmiths in Australia's largest market. While the early years coincided with difficult economic conditions, the commitment of the founding team and strong industry relationships quickly established the branch as a trusted supplier.

Building on this momentum, LSC opened its QLD branch in Brisbane in April 1990. Launching during one of Australia's toughest economic recessions was no small undertaking, but the branch flourished through the dedication of its people, the success of key product ranges such as Silca, and an increasing focus on marketing through comprehensive product catalogues, trade exhibitions and roadshows.

LSC's expansion continued in 1991 with SA. Rather than opening a branch immediately, LSC partnered exclusively with Adrian and Bronwyn Johnson of Keylok Distributors. Their exceptional product knowledge, customer service and respected reputation within the locksmithing industry laid a strong foundation for LSC in South Australia. In 1996, following Adrian's ill health, LSC assumed full ownership of the operation and formally established the Adelaide branch at its Gilbert Street location where we operated from until recently.

As LSC's national footprint grew, so too did the business. By the mid-1990s, the company had established branches across Australia and distributor partnerships throughout New Zealand. After several years of rapid expansion, the focus shifted from growth to strengthening the business, refining operations and continuing to raise the standard of service offered to customers.

The security industry was also evolving. LSC embraced these challenges, continually investing in its people, customer support and industry relationships.

Throughout this period, Silca continued to play a pivotal role in LSC's growth. Having partnered with the Italian manufacturer since the late 1970s, LSC helped establish Silca as one of Australia's leading key cutting brands. Supported by continuous product innovation, from key blanks through to advanced mechanical and electronic key cutting machines, Silca became an essential part of many locksmith businesses.

By the end of the 1990s, LSC had successfully evolved from a Melbourne-based family business into a national leader serving locksmiths and security professionals across Australia. The expansion of its branch network, combined with a commitment to customer service, trusted supplier partnerships and continuous improvement, laid the foundations for the next chapter of growth as the industry entered a new era of technology and innovation.

G2 SERIES LOCKS AND LATCHES

NEW

LSC and Allegion are proud to announce the official release of the Legge G2 Series locksets and accessories.

The Legge G2 Series has long been recognised for delivering reliable security, durability, and modern design. Manufactured to ANSI/BHMA Grade 2 standards, the G2 range is ideally suited for commercial applications requiring dependable performance and compliance.

Featuring the popular Sparta lever design with AS1428.1 accessibility compliance, the range offers a wide selection of functions including entrance, passage, privacy and dummy trims, along with key commercial options such as classroom and storeroom functions. Stocked across all LSC branches.

All locks are now supplied with a C4 6 pin cylinder fitted.

SAVE TIME AND SAY YES TO EVERY POSSIBLE CUSTOMER WITH SILCA LUMI

The Silca Lumi is a portable key profile reading workstation that's powered by the MyKeysPro App, and backed by a powerful Ai server in the cloud.

Key cutting is one of the most profitable service offerings in any locksmith business, but only if you can identify the key in a couple of seconds. For a high percentage of keys, that will be easy for professional locksmiths, but when presented with unusual or exotic keys,

precious minutes can be lost by inexperienced tradespeople - or worse, you can risk turning a customer away.

Silca's Lumi solves that.

Lay the key on the scaling table, snap a photo with your smart phone, upload it to the cloud and use Silca's powerful database to analyse thousands of keys in seconds, giving you ranked results.

PERFORMANCE, PRECISION, FLEXIBILITY.

When you want the ultimate in key cutting automation: **Silca Protech Plus**

Chosen by the worlds largest and most professional lock manufacturers and locksmiths, Silca's Protech Plus blends performance, precision and flexibility in a package like no other.

Every machine is customised to your specific requirements, and every machine is tested by an individual artisan at Silca for conformance to OEM specifications and tolerances.

Configurations are available to support inline, dimple, track and rotational disc style locks, with combinations of those to suit our market and the needs of customers servicing demanding end user projects.

Keys are cut, engraved and sorted – ready to go to your cylinder assembly station at a rate of up to 130 per hour.

- Cuts all standard & restricted inline keys
- Cuts all kinds of Kaba dimple keys
- Cuts EVVA track keys
- Cuts BiLock keys
- Cuts Abloy Protec keys

Robotic arms and grippers move keys around individual stations for different operations such as cutting and engraving.

The machine is controlled by a windows pc, easily integrated into your network, and which runs unique software.

Cut and engraved keys are sorted into a 6x7 tray of 42 cells in pairs (or singles, triples, or whatever you need).

OUR PARTNERS TAKE CENTRE STAGE *AT SECURITY EXPO 2026*

2 – 4 September 2026

Hall 6 & 7, Level 4, ICC, Sydney

LSC is proud to be supporting our supply partners Salto, Dahua, dormakaba and HID at this year's Security Expo, as they showcase their latest innovations and solutions to the security industry.

If you're attending, be sure to visit their stands, connect with the teams and discover the products and technologies helping shape the future of security.

Now celebrating its 40th year, Security Expo is Australia's leading event for security professionals, bringing the industry together to connect, discover new solutions and share insights into today's evolving security challenges. Co-located with Fire Security Expo and Integrate, the event offers a comprehensive experience across the security and connected technology sectors.

salto 

Salto is a global leader in smart access solutions, pioneering electronic locking, access control and identity management technologies. With a focus on innovation, Salto creates seamless, reliable and secure access experiences designed to meet the evolving needs of industries and facilities around the world.

Meet the Salto Team

Turn to page 16 to discover how you can book a meeting with the Salto team and unlock exclusive access to the Salto Smart City Lobby Bar during the exhibition.

STAND D16

dormakaba 

dormakaba has been serving customers in Australia and New Zealand for over 50 years, offering a comprehensive portfolio of innovative access solutions tailored to the unique needs of local industries.

Their product range includes advanced access control systems, locks, master key systems, automatic doors, digital door locks, and a full suite of door hardware. They are there when you need innovative, reliable access and security solutions – in hotels, shops, sporting venues, airports, hospitals, in the home or at the office.

STAND H37

HID

HID powers the trusted identities of the world's people, places and things. HID make it possible for people to transact safely, work productively, and travel freely.

People use HID products to open doors, access digital networks, personalise badges, verify transactions, find information, track assets and connect with others ensuring their identities are seamlessly accepted, anywhere, anytime.

With HID's trusted identity solutions, people get effortless and worry-free identity verification experiences with only a tap, twist, tag, push, swipe, or simply through the proximity of their chosen device.

STAND D7

dahua
TECHNOLOGY

Dahua Technology is a global AIoT leader, serving Australian homes and businesses for over a decade. Dahua drives smarter, safer, and more efficient living through integrated solutions in security, urban safety, and digital transformation.

How Australians Are Using Smart Locks Today

Across Australia, homeowners, holiday accommodation owners and small businesses are discovering that smart locks can simplify everyday life, improve security and remove many of the frustrations associated with traditional keys.

From managing access remotely to eliminating lockouts, smart lock technology is changing the way Australians secure and access their properties.

Australian 'Metro-Tech's Are Driving Demand

Tech-savvy, convenience focused parents & homeowners looking for 'smart-solutions' to make their lives easier.

Lifestyle benefits:

Kids safe at home

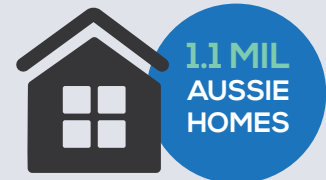

Easy family access

No more lost keys

By 2029: **15.2%** of Aussie homes will have a smart access solution installed.

Family Homes

Keyless access for family, friends and visitors.

Short-Term Rentals

Simple guest access with temporary PIN codes.

Small & Medium Businesses

Easy staff access management and greater security.

Why are more installers choosing McGrath Smart Locks for their smart access solutions

Made for Australian Conditions
(Durable/IP65 or IP66 ratings)

Industry Leading App

Up to 24-month limited warranty (subject to model)

Australian Certified
(Fire rating, DDA compliance etc)

Ongoing Product Innovation Pipeline

Backed by LSC's 100 years of trusted trade support

INTRODUCING DAHUA AIRSHIELD

ASSA ABLOY

TESTIMONIAL

Winning this incredible prize from LSC and ASSA ABLOY was truly a dream come true for Andrew and me!

We spent seven nights in beautiful Nice and three unforgettable days experiencing the Monaco Formula 1 Grand Prix. The highlight was watching the race aboard the 44-metre yacht Nella alongside the home straight, it genuinely felt like something straight out of a movie.

When we weren't at the Grand Prix, we explored Nice, enjoyed the local cafés and relaxed on the beach, it was the perfect balance of excitement and leisure.

A huge thank you to LSC and ASSA ABLOY for organising this once-in-a-lifetime holiday (business trip!). An unforgettable experience... until we win it again next year!

Dave & Andrew | Bells Locksmiths

BRISBANE TAFE AUTOMOTIVE TRAINING DAY

ADVANCED DIAGNOSTICS

LSC's Martin McGovern recently visited the Brisbane TAFE campus to support an automotive training day, giving students the opportunity to gain valuable hands-on experience with the latest key programming technology.

Working alongside the teaching staff, students explored the new Silca EvoX and programmed keys using SMART Pro, building practical skills and confidence with the tools they'll use in the industry. It was a fantastic opportunity to bridge classroom learning with real world applications and support the next generation of automotive locksmiths.

HAPPY CUSTOMERS

AMALGAMATED LOCKSMITHS (QLD)

Dan Williams from Amalgamated Locksmiths in Brisbane poses with their new Silca EvoX.

ESL IPSWICH CITY LOCKSMITHS (QLD)

Rachel Baines from ESL Ipswich City Locksmiths poses with her new Silca Bravo II Professional.

SYDNEY TAFE (NSW)

LSC recently supplied and installed the latest Silca key cutting technology at Sydney TAFE, including the Silca F900, Silca D700 and Silca M400.

By partnering with leading training providers, we're helping ensure the next generation of locksmiths gain hands-on experience with the same cutting-edge equipment used throughout the industry, building the skills and confidence they'll take into their careers.

Pictured are Sydney TAFE teachers Branislav Micatka and Luke Bowden with Paul Gliddon from LSC following the installation.
